Tree

Brachychiton populneus

KURRAJONG TREE

Description

This tree is short and stout with interesting greenish bark. It produces white bell shaped flowers from Spring to early Summer amongst large leaves of varying shapes. It can become semi deciduous in early summer.

Foliage

☒ Evergreen

Form

☒ Round

Mature Size

8-10 x 10m

Uses

Fantastic for small gardens, a great feature tree. Can be used in streetscapes and parks. A great shade tree that can grow in most environments.

Position & Soil

Will tolerate very dry conditions in most soils from clay fertile to rocky hilltops. This tree is known to be moderately drought tolerant.
