Tree	 **Eucalyptus torquata x woodwardii 'Torwood'** 'TORWOOD' CORAL GUM TREE
Description	This small evergreen, native tree is a spectacular hybrid cross between E. torquata and E. woodwardia, which are both endemic to Western Australia. It has beautiful blue-green foliage. Flowers are produced in spring and summer and are commonly large and clustered in a pretty mix of orange, scarlet and yellow tones.
Foliage	☒ Evergreen
Form	☒ Broad-domed
Mature Size	7 x 6m
Uses	Growing below 8m tall, and with such beautiful flowering, it is a good selection as a feature or street tree in a dry environment.
Position & Soil	Bird attracting, this tree will thrive in an open, sunny, well-drained position. Drought and frost tolerant once established, it prefers a dry, low rainfall environment. Is very suited to coastal conditions. Refrain from high phosphorus fertilisers.
