Tree

Tristaniopsis laurina

KANOOKA GUM TREE, WATER GUM TREE

Description

Preferring moist but well-drained sites, this variety occurs naturally along the east coast of Australia from the Brisbane River in Queensland all the way through to Gippsland in Victoria. A relatively slow grower, this evergreen Australian native has an oval form, producing clusters of yellowish-white flowers during the warmer months. Bark is smooth and light grey in colour, becoming scaly with maturity.

Foliage

☒ Evergreen

Form

☒ Oval

Mature Size

12-15 x 4-6m

Uses

Great for street plantings. Can be used in smaller gardens and parks. Bird attracting.

Position & Soil

Will tolerate most well drained soils in full sun. Whilst it copes with occasional wet ground, it is not suitable for inundated or saturated soil conditions.

Features	☐ Large ☐ Evergreen ☐ Oval ☐ Bird Attracting ☐ Native ☐ Shade Tree ☐ Specimen
